Subject: PDP Mango Method Validation
Attachments: MA Method Validation Communication to EPA and FDA 010818 CA.pdf

Hello,

Attached is a memo detailing the results of the California laboratory's method validation efforts for mangoes. The memo specifies those compounds requested, based on U.S. mango registrations/tolerances, but not able to be validated. The Texas laboratory is also analyzing mangoes and their method validation information will be sent at a later date.

Best regards,
Diana
